SMARTCOUNT ™

helps you manage your operations at a glance!

PRODUCTIVITY THROUGH ACCOUNTABILITY

Smart Count lets you set, display and track, production goals to help you boost productivity by 5% to 100%!

PLUG AND PLAY SETUP

In less than an hour and without programming you can have a simple, secure method to display critical numbers for a single process or operation-wide performance.

REAL TIME DATA STREAMING

Smart Count helps you quickly pinpoint problem areas and fix them while tracking and reducing waste.

SIMPLE AND EFFECTIVE SYSTEM

Accurately tracks the real-time metrics of your production line including setup time and downtime.
